Proceedings of the 22nd DOE/NRC Nuclear Air Cleaning Conference

Sessions 9–16

Held in Denver, Colorado
August 24–27, 1992

Edited by M. W. First

Sponsored by
U.S. Department of Energy
U. S. Nuclear Regulatory Commission
International Society of Nuclear Air Treatment Technologies, Inc.
The Harvard Air Cleaning Laboratory

Proceedings prepared by
The Harvard Air Cleaning Laboratory
NOTICE

These proceedings have been authored by a contractor of the United States Government. Neither the United States Government nor any agency thereof, or any of their employees, makes any warranty, expressed or implied, or assumes any legal liability or responsibility for any third party’s use, or the results of such use, of any information, apparatus, product or process disclosed in these proceedings, or represents that its use by such third party would not infringe privately owned rights. The views expressed in these proceedings are not necessarily those of the U.S. Nuclear Regulatory Commission.

Dissolution Off-Gas Characterization at the Marcoule Pilot Facility: Iodine Trapping and Off-Gas Characterization Unit by
D. Pouyat, B. Vignau, J.P. Roux,
Rhône Valley Nuclear Research Center, France

TRITIUM EMISSIONS REDUCTION FACILITY (TERF) by
P.H. Lamberger, W.H. Hedley,
EG&G Mound Applied Technologies

MINIMIZING OF IODINE-129 RELEASE IN THE KARLSRUHE REPROCESSING PLANT WAK by
F.J. Herrmann, V. Motoi, B Herrmann, D. Fang,
L. Finsterwalder, K.D. Kuhn, A. van Schoor, Ch. Beyer,
Wiederaufarbeitungsanlage Karlsruhe Betriebsgesellschaft mbH.
J. Furrer, Kernforschungszentrum Karlsruhe GmbH,
W. Knoch, KEWA Kernbrennstoffwiederaufarbeitungstechnik GmbH

IODINE STRIPPING FROM NITRIC SOLUTIONS IN IATEMA by
J. Furrer, R. Kaempffer, A. Linek, K. Jannakos,
Kernforschungszentrum Karlsruhe, Germany

THE DEVELOPMENT OF CORONA DISCHARGE FOR IODINE REMOVAL FROM NUCLEAR FUEL REPROCESSING PLANT OFF-GASES by
N.S. Holt, A.L. Goldsmith, Winfrith Technology Centre,
I.S. Denniss, BNFL, United Kingdom

REMOVAL OF IODINE-129 FROM DISSOLVER OFF-GAS OF REPROCESSING PLANT BY SILVER IMPREGNATED ADSORBENTS by
Y. Kondo, Y. Sugimoto, Y. Hirose, T. Fukasawa, Hitachi Ltd., Japan,
J. Furrer, Kernforschungszentrum Karlsruhe GmbH, F.J. Herrmann,
Wiederaufarbeitungsanlage Karlsruhe Betriebsgesellschaft mbH, W. Knoch,
KEWA-Kernbrennstoff Wiederaufarbeitungstechnik GmbH, Germany

DISCUSSION

DISCUSSION

DISCUSSION

DISCUSSION

DISCUSSION

DISCUSSION
DISCUSSION ................................................................ 127

EFFECTS OF THE PARTICLE PENETRATION INSIDE THE FILTER MEDIUM
ON THE HEPA FILTER PRESSURE DROP by
P. Letourneau, Institut de Protection et de Sûreté Nucléaire,
V. Renaudin, Ecole Supérieure d’Ingénieurs en Génie de l’Environnement
et de la Construction Laboratoire de Génie des Procédés Université
de Savoie, J. Vendel, Institut de Protection et de Sûreté Nucléaire, France ........................................... 128

DISCUSSION ................................................................ 142

CLOSING COMMENTS OF SESSION CO-CHAIRMAN JUBIN ......................... 143

SESSION 3
FILTER TESTING,

Monday: August 24, 1992
Co-Chairmen: H. Gilbert
Consultant
R. Dorman
Consultant

OPENING COMMENTS OF SESSION CO-CHAIRMAN DORMAN .................... 145

AN UPDATE: DOP REPLACEMENT IN TESTING MACHINES FOR
FILTERS AND RESPIRATORS by
H.R. Carlon, M.A. Guelta, U.S. Army Chemical Research ............................. 146

DISCUSSION ................................................................ 153

A NEW METHOD FOR IN-SITU FILTER TESTING USING
PULSES OF AEROSOL AND PHOTOMETRIC DETECTION WITH
COMPUTER CONTROL by
R.C. Parker, M. Marshall, R.B. Bosley,
Harwell Laboratory, United Kingdom ............................................................. 154

DISCUSSION ................................................................ 161

DEVELOPMENT OF THE QUICKMIX INJECTOR FOR IN-SITU FILTER TESTING by
O. Costigan, D. Loughborough, Harwell Laboratory, United Kingdom ................ 163

DISCUSSION ................................................................ 176

REVIEW OF DEPARTMENT OF ENERGY HEPA FILTER TEST ACTIVITIES
FY 1990-FY 1992 by
J.A. McIntyre, Los Alamos National Laboratory .......................................... 177
DISCUSSION ................................................................. 189

CHRONIC INHALATION STUDIES OF MAN-MADE VITREOUS FIBERS by
T. Hesterberg, W.C. Miller, R. Anderson,
Schuller International, Inc. ........................................... 191

EFFECTS OF FILTER HOUSING AND DUCTWORK CONFIGURATION ON AIR FLOW
UNIFORMITY INSIDE AIR CLEANING FILTER HOUSINGS by
J.D. Paul, Westinghouse Savannah River Company ............. 205

DISCUSSION ................................................................. 210

CLOSING COMMENTS OF SESSION CO-CHAIRMEN DORMAN AND GILBERT .......... 211

SESSION 4

CODES AND STANDARDS
Monday: August 24, 1992
Co-Chairmen: R. R. Bellamy
U.S. Nuclear Regulatory Commission
L. Soffer
U.S. Nuclear Regulatory Commission

A REVIEW OF GAS PHASE FILTRATION STANDARDS AND THEIR
APPLICABILITY TO NUCLEAR APPLICATIONS by
J. Jacox, Jacox Associates ............................................. 215

DISCUSSION ................................................................. 222

APPLICATION OF ASME CODE AG-1 TO YGN 3 & 4 PLANTS, SOUTH KOREA by
Y.K. Kim, Korea Heavy Industries & Construction Co., Korea,
R.D. Porco, J.D. York, Ellis and Watts ............................. 223

DISCUSSION ................................................................. 231

BARC: A CONSERVATIVE APPROACH TO REGULATING RADIONUCLIDE EMISSIONS by
J.R. Blacklaw, K. Fox-Williams, D. Peterson, A.W. Conklin,
State of Washington Department of Health ....................... 233

DISCUSSION ................................................................. 239

CLOSING COMMENTS OF SESSION CO-CHAIRMAN SOFFER ......................... 240
SESSION 5

WASTE MANAGEMENT

Tuesday: August 25, 1992
Co-Chairmen: D. W. Moeller
Harvard School of Public Health
W. R. A. Goossens
Vitro, Belgium

OPENING COMMENTS OF SESSION CHAIRMAN MOELLER ........................................... 243

EXPERIMENTAL STUDY ON THE VOLATILE RUTHENIUM DECONTAMINATION FACTOR OF THE PERFORATED PLATE COLUMN SCRUBBER by
M. Kitamura, K. Shirato, K. Arai,
Ishikawajima-Harima Heavy Industries, Japan .......................................................... 244

DISCUSSION ............................................................................................................. 252

MEASUREMENT OF CESIUM EMISSIONS DURING THE VITRIFICATION OF SIMULATED HIGH LEVEL RADIOACTIVE WASTE by
J.R. Zamecnik, D.H. Miller, J.T. Carter,
Westinghouse Savannah River Company ................................................................. 253

DISCUSSION ............................................................................................................. 261

STRUCTURAL TESTING OF SALT LOADED HEPA FILTERS FOR WIPP by
P.R. Smith, I.H. Leslie, E.C. Hensel, New Mexico State University,
T.M. Schultthesis, Sandia National Laboratories, J.R. Walls,
Westinghouse Corporation ......................................................................................... 262

CLOSING COMMENTS OF SESSION CO-CHAIRMAN MOELLER ................................. 281

SESSION 6

INSTRUMENTS AND SAMPLING

Tuesday: August 25, 1992
Co-Chairmen: D. W. Moeller
Harvard School of Public Health
W. R. A. Goossens
Vitro, Belgium

DIRECT POST-ACCIDENT SAMPLING SYSTEM FOR CONTAINMENT ATMOSPHERES (DI-PAS SYSTEM) by
B. Eckardt, Siemens AG, Germany .............................................................................. 283
PERFORMANCE CHARACTERIZATION OF A NEW CAM SYSTEM by
M. Koskelo, Canberra Industries, J.C. Rodgers, D.C. Nelson,
Los Alamos National Laboratory, A.R. McFarland, C.A. Ortiz,
Texas A&M University ......................................................... 299

DISCUSSION ........................................................................ 309

AEROSOL PARTICLE LOSSES IN SAMPLING SYSTEMS by
Texas A&M University .......................................................... 310

DISCUSSION ...................................................................... 323

HIGH EFFICIENCY AND ULTRA LOW PENETRATION AEROSOL FILTER
TEST PROGRAMS BY THE EUROPEAN COMMUNITY COUNTRIES by
R.G. Dorman, Consultant, United Kingdom .............................. 324

THE EFFECTS OF TEMPERATURE ON HEPA FILTER MEDIA by
C. Hamblin, P.J. Goodchild, AEA Harwell Lab., England ........... 327

DISCUSSION ...................................................................... 335

CLOSING COMMENTS OF SESSION CO-CHAIRMAN MOELLER ....... 336

SESSION 7

WORKING LUNCHEON

Tuesday: August 25, 1992
Chairman: D. W. Moeller, Chairman,
Advisory Committee on Nuclear Waste

OPENING COMMENTS OF SESSION CHAIRMAN MOELLER ........... 339

CHANGES TO LICENSING FOR U.S NUCLEAR POWER PLANTS by
E. Gail de Planque, Commissioner, U.S. Nuclear Regulatory Commission ........................................ 341

DISCUSSION ...................................................................... 354
OPENING COMMENTS OF SESSION CO-CHAIRMAN MILLER ......................... 361

REVISION OF REACTOR ACCIDENT SOURCE TERMS AND IMPLICATIONS FOR NUCLEAR AIR CLEANING REQUIREMENTS by
L. Soffer, Nuclear Regulatory Commission .............................................. 362

POST-ACCIDENT AIR LEAKAGE ANALYSIS IN A NUCLEAR FACILITY VIA T-METHOD AIRFLOW SIMULATION by
T. Farajian, G. Grewal, R.J. Tsai, Fluor Daniel, Inc. .......................... 374

DISCUSSION ......................................................................................... 392

THE EXPERIENCE WITH THE EFFECTIVENESS OF FILTERING SYSTEMS FOR THE RADIOACTIVE FALL OUT FROM THE CHERNOBYL ACCIDENT IN GERMANY by
H. Braun, Ministry for the Environment, Germany .......................... 393

DISCUSSION ......................................................................................... 401

AEROSOL PENETRATION THROUGH A SEISMICALLY LOADED SHEAR WALL by
C.R. Farrar, S.P. Girrens, Los Alamos National Laboratory ................. 402

BETA EXPERIMENTS ON AEROSOL RELEASE DURING MELT-CONCRETE INTERACTION AND FILTERING OF THE OFF-GAS by
H.G. Dillmann, H. Pasler; H. Alsmeyer,
Kernforschungszentrum Karlsruhe GmbH ............................................. 415

ACTIVATED CHARCOAL BEDS FOR PASSIVE MITIGATION OF THE RADIO-ACTIVITY RELEASE FROM SEVERE ACCIDENTS. HEAT TRANSPORT AND DYNAMIC NOBLE-GAS WATER-VAPOUR COADSORPTION by
F. Castellani, G. Curzio, F. d'Errico, S. Lanza,
Università di Pisa, A. Mori, ENEA-AMD, Pisa, G. Rossi,
Università di Pisa, G. Sgalambro, ENEA-DISP, Roma, Italy ...................... 428

DISCUSSION ......................................................................................... 442
DESIGN OF A PREFILTER TO IMPROVE RADIATION PROTECTION AND FILTERING EFFICIENCY OF THE CONTAINMENT VENTING SYSTEM by M. Kaercher, Electricité de France, France ................................. 443

DISCUSSION ................................................................. 452

EXPERIMENTAL STUDY ON AEROSOL REMOVAL EFFECT BY POOL SCRUBBING by I. Kaneko, M. Fukasawa, M. Naito, Toshiba Corporation
K. Miyata, Tokyo Electric Power Company, M. Matsumoto,
Hitachi Ltd., Japan ...................................................... 453

DISCUSSION ................................................................. 463

THE PHEBUS FP INTEGRAL SOURCE TERM EXPERIMENTAL PROJECT WITH EMPHASIS ON IODINE SELECTIVE FILTERING by R. Zepn, Commission of the European Communities, Italy
J.G. Wilhelm, Kernforschungszentrum Karlsruhe, Germany
M. Lucas, Commissariat à l'Energie Atomique, France ......................... 464

CLOSING COMMENTS OF SESSION CO-CHAIRMEN WILHELM AND MILLER ............... 483

VOLUME 2

SESSION 9

PANEL SESSION: CODE ON NUCLEAR AIR AND GAS TREATMENT - AG-1

Tuesday: August 25, 1992
Moderator: W. H. Miller, Jr., Sargent & Lundy

Panel Members: C. Ashton, Northeast Utilities
J. Paul, Westinghouse Savannah River
R. Porco, Ellis & Watts
P. Olson, W. Paschal, Sargent & Lundy

CODE ON NUCLEAR AIR AND GAS TREATMENT ASME/ANSI AG-1 by W. H. Miller, Jr., Sargent & Lundy ........................................... 485

DUCTWORK SECTION (SA) IMPROVEMENTS by C. Ashton, Northeast Utilities .................. 488

INSTRUMENT & CONTROLS SECTION (IA) IMPROVEMENTS by C. Kramer, Gilbert/Commonwealth Inc., J. Paul,
SESSION 10
FILTERS AND FILTER PERFORMANCE

OPENING COMMENTS OF SESSION CO-CHAIRMAN BERGMAN

CHALLENGES WITHIN VENTILATION SYSTEMS DURING ACCIDENT SITUATIONS by
M. Fronhöfer, M. Neuberger, J.G. Wilhelm, Kernforschungszentrum Karlsruhe GmbH, Germany

DISCUSSION

RADIAL FLOW SYSTEMS FOR THE NUCLEAR INDUSTRY by
M.L. Davis, Flanders Filters Inc.

DISCUSSION

BEHAVIOR OF THE LOADED POLYGONAL HEPA FILTER EXPOSED TO WATER DROPLETS CARRIED BY THE OFF-GAS FLOW by
K. Jannakos, H. Mock, G. Potgeter, J. Furrer,
Kernforschungszentrum Karlsruhe, Germany

DISCUSSION

THE APPLICATION OF HEPA FILTER UNITS IN GAS STREAMS OF HIGH DUST CONCENTRATIONS by
H. Leibold, I. Döffert, T. Leiber, J.G. Wilhelm,
Kernforschungszentrum Karlsruhe, Germany

DISCUSSION
PREDICTING MASS LOADING AS A FUNCTION OF PRESSURE DIFFERENCE ACROSS PREFILTER/HEPA FILTER SYSTEMS by V.J. Novick, J.F. Klassen, Argonne National Laboratory, P.R. Monson, T.A. Long, Westinghouse Savannah River .................................................. 554

DISCUSSION .................................................. 573

DISCUSSION .................................................. 585

DISCUSSION .................................................. 614

DEVELOPMENT AND EVALUATION OF A HEPA FILTER FOR INCREASED STRENGTH AND RESISTANCE TO ELEVATED TEMPERATURE by H. Gilbert, Consultant, W. Bergman, Lawrence Livermore National Laboratory, J.K. Fretthold, EG&G Rocky Flats, Inc. .................................................. 617

CLOSING COMMENTS OF SESSION CO-CHAIRMAN ANDERSON ......................... 635

SESSION 11

ADSORBER TESTING AND ADSORBER PERFORMANCE

Wednesday: August 26, 1992
Co-Chairmen: J. L. Kovach
Nuclear Consulting Services, Inc.
Li Qi-dong
Fudan University, People's Republic of China

A SIMPLIFIED TEST PROCEDURE FOR DETERMINING THE EFFECTIVENESS OF ADSORBENTS FOR THE REMOVAL OF METHYL IODIDE by D.W. Underhill, University of South Carolina .................................................. 637

DISCUSSION .................................................. 645
PARAMETRIC STUDIES OF RADIOACTIVE IODINE, HYDROGEN IODIDE AND METHYL IODIDE REMOVAL by
J.L. Kovach, Nuclear Consulting Services, Inc. ....................................................... 646

DISCUSSION ............................................................................................................ 660

TESTING OF ADSORBENTS USED IN NUCLEAR POWER PLANT AIR CLEANING SYSTEMS USING THE “NEW” STANDARDS by
W.P. Freeman, Nuclear Consulting Services, Inc. ....................................................... 661

DISCUSSION ............................................................................................................ 671

EXPERIENCE WITH ONTARIO HYDRO’S IN PLACE CARBON FILTER TESTING by
J. Holtopr, A. Guest, K. Parker, T. Jarv. C. Brain, Ontario Hydro, Canada ......................... 672

DISCUSSION ............................................................................................................ 697

REPLACEMENT TRACER AGENT FOR THE IN-PLACE LEAK TESTING OF ADSORBERS IN NATS by
J.R. Pearson, K.M. Fleming, J.R. Hunt, NCS Corporation
P.L. Lagus, Lagus Applied Technology, Inc. .............................................................. 698

DISCUSSION ............................................................................................................ 711

SESSION 11A

INVITED SPEAKER

Wednesday: August 26, 1992
Chairman: L. Stirling
U.S. Department of Energy Waste

OPENING COMMENTS OF SESSION CHAIRMAN STIRLING ...................................... 715

DOE WASTE MANAGEMENT PROGRAM-CURRENT AND FUTURE by
Joseph A. Coleman, Office of Environmental Restoration and Waste Management, U.S. Department of Energy ......................................................... 716

DISCUSSION ............................................................................................................ 727
OPENING COMMENTS OF PANEL MODERATOR WEIDLER ............................................. 731

INTRODUCTORY REMARKS by
L. Soffer, U.S. Nuclear Regulatory Commission ..................................................... 731a

A UTILITY PERSPECTIVE ON NEW SOURCE TERMS by
H.E. Vanpelt, Duke Power Company ................................................................. 732

NOTES ON THE DRAFT NUREG REPORT ACCIDENT SOURCE TERMS FOR
LIGHT-WATER NUCLEAR POWER PLANTS by
J.L. Kovach, NUCON International, Inc. ............................................................. 734

PROPOSED SOURCE TERM REVISIONS - POTENTIAL IMPACT ON FUTURE
NUCLEAR AIR CLEANING REQUIREMENTS, APPLICATION TO DOE
PRODUCTION REACTOR OPERATION by
M.L. Hyder, Westinghouse Savannah River Company ........................................... 736

REVISED ACCIDENT SOURCE TERMS AND CONTROL ROOM HABITABILITY by
G.P. Lahti, R.S. Hubner, W.J. Johnson, B.C. Schwartz,
Sargent & Lundy ......................................................................................... 742

PANEL DISCUSSION ..................................................................................... 748

CLOSING COMMENTS OF PANEL MEMBER SOFFER ........................................... 751

EFFECT OF FILTERING AT CONTAINMENT VENTING ON THE CONSEQUENCES
FOR THE ENVIRONMENT by
L.C. Scholten, E.L.M.J. van Wonderen, J. van der Steen,
N.V. KEMA Arnhem, the Netherlands ............................................................... 753
SESSION 13

PANEL SESSION: CARBON TESTING

Thursday: August 27, 1992
Moderator: J. L. Kovach
NUCON International, Inc

Panel
Members: J.R. Pearson, NCS
J. Hayes, U.S. Nuclear Regulatory Commission
C. Gill, U.S. Nuclear Regulatory Commission

OPENING COMMENTS OF PANEL MODERATOR KOVACH ........................................ 761

RESPONSE OF NRC REGION III TO PERCEIVED LACK OF
FILTER TESTING EXPERTISE CONCERNS by
C.F. Gill, U.S. Nuclear Regulatory Commission ........................................ 762

DISCUSSION ................................................................. 767

METHYL IODIDE TESTS ON USED ADSORBENTS by
J.L. Kovach, NUCON International, Inc. ........................................ 768

PANEL DISCUSSION ................................................................. 772

CLOSING COMMENTS OF PANEL MODERATOR KOVACH ........................................ 779

SESSION 14

VENTILATION SYSTEMS

Thursday: August 27, 1992
Co-Chairmen: J. D. Paul
Westinghouse Savannah River Company
R. R. Weidler
Duke Power Company

DEVELOPMENT OF COMPUTER DESIGN SYSTEM FOR HVAC SYSTEM by
Y. Miyazaki, M. Yotsuya, M. Hasegawa, Mitsubishi Heavy Industries, Ltd., Japan .................. 781

DISCUSSION ................................................................. 790

DESIGN AND CHARACTERISTICS OF ANNULUS VENTILATION AND HVAC SYSTEM
FOR PROTOTYPE FBR MONJU by
F. Suzuki, M. Ikeda, Power Reactor and Nuclear
DISCUSSION

MODERN TECHNOLOGY TOOLS FOR IMPROVEMENT OF NPP RELIABILITY-CASE STUDY OF NPP FILTRATION SYSTEMS VALIDATION by L. Vujisic, Z. Drace, The Institute of Nuclear Sciences "Vinca", J. Protic, University of Beograd, Yugoslavia

HEATER SELECTION CRITERIA FOR ENGINEERED SAFETY FEATURES ATMOSPHERE FILTRATION SYSTEMS by T.W. Hayes, J.A. Wehrenberg, Southern Company Services, Inc.

SURVEY OF LIFE-CYCLE COSTS OF GLASS-PAPER HEPA FILTERS by P. Moore, W. Bergman, Lawrence Livermore National Laboratory, H. Gilbert, Consultant

CONCEPT FOR A PASSIVE HEAT REMOVAL AND FILTRATION SYSTEM UNDER CORE MELTDOWN CONDITIONS by J.G. Wilhelm, H.-J. Neitzel, Kernforschungszentrum Karlsruhe GmbH, Germany

DISCUSSION
