

# **INTERNATIONAL SOCIETY FOR NUCLEAR AIR TREATMENT TECHNOLOGIES**

## **31st International Nuclear Air Cleaning Conference**

Charlotte, NC  
July 19-21, 2010

1. Table of Contents
2. Attendee List for 30<sup>th</sup> International Nuclear Air Cleaning Conference, Seattle, WA, August 25-27, 2008
3. Minutes of ISNATT Meeting August 26, 2008
4. Welcoming Remarks, Dr. Ronald R. Bellamy, President, ISNATT
5. Conference Agenda
6. Keynote Presentation, The Nuclear Renaissance, Lee Elder, Senior Vice-President, The Shaw Group (no presentation provided)
7. ASME CONAGT Activities, Accomplishments, and Challenges, Vogan, Sargent & Lundy
8. NHUG and INPO Activities, Accomplishments, and Challenges, Adams, FENOC (no presentation provided)
9. BWR Steam Line Radionuclide Concentration Distribution following a DBA LOCA, Metcalf and Perez, AREVA NP Inc
10. Demonstration of Integrated Voloxidation and Dissolver Off-gas Treatment Systems, Jubin, ORNL (no presentation provided)
11. Identification of Appropriate Qualification Testing and End-of-Life Waste Storage Considerations for Deep Bed Sand (DBS) Filters, Kline, Batelle, Matthews, SRNS, Mearns, US Army, Patel, URS, Petersen, URS, Roberts, Retired
12. Effect of Surface Modifications on the Performance of Nuclear Grade Activated Carbon for Removal of Methyl Iodide, Freeman, Jacobi Carbons
13. Commercial Dedication, A Manufacturer's Perspective, Bartlam, Ellis & Watts
14. Filter Test Facility Report on the Testing of HEPA Filters for the Department of Energy, Crosby, Fretthold, Hart and Stormo, ATI (no presentation provided)

15. Realization of Performance Specifications for the Qualification of High-Strength HEPA Filters, Ricketts, New Mexico State University, Stillo, Camfil Farr, Cambo, Lydall
16. Realization of a Prototype Full-Scale Test Rig Toward Qualification of High-Strength HEPA Filter Units, Altamirano, Lucero, McNierney, Saulietis, and Toledo, NMSU
17. Evaluating ASME AG-1 Section FK Radial Flow HEPA Filter, Arunkumar, McCown, Parsons, Rickert, Rogers, and Waggoner, Institute for Clean Energy Technology, Mississippi State University
18. An Aerosol Neutralizer for Large Scale Testing of HEPA Filters, Unz, Rogers, Waggoner, and Coggins, ICET, MSU
19. HEPA Filter Efficiency After Hydrogen Fluoride Exposure, Bergman, Aerosol Science, Garcia, Bechtel
20. Qualification Testing of HEPA Filters – Issues, Sen, USDOE, Bergman, Aerosol Science, Hahn, USDOE, Stormo, ATI (no presentation provided)
21. Luncheon Presentation, Westinghouse US AP1000 Projects, Norman C. Boyter, Vice-President, Westinghouse
22. The Effect of Boundary Breach on Measured Inleakage, Lagus, Lagus Applied Technology, Carlson, OPPD
23. The Effects of a Known Control Room Envelope Breach on the Control Room Differential Pressure, Outside Airflow, and Potential Unfiltered Inleakage, Eric Banks, NUCON
24. Neutral Pressure CREEV Inleakage Measurements, Lagus, LAT, Udagawa and Yamaji, Mitsubishi, Grot, LAT
25. Testing of Carbon Filters in Australian Nuclear Installations, Rudenas, ANSTO
26. AP1000 HVAC Specifications and Procedures, Pest, Consultant (no presentation provided)
27. USNRC Regulatory Guides – Purpose and Process, Bettel, USNRC (no presentation provided)
